

## **Advent Aircraft Systems Grows Worldwide eABS Dealer Network**

Five new dealers in US, UK, France, Norway Added

October 24, 2018, Tulsa, OK - Advent continues to respond to increasing interest and demand for its proven anti-skid braking system STC for the King Air B200/B300/300/300LW, the Advent eABS™, by growing its worldwide dealer network.

“Advent is proud to add Sundt Air AS, Gardermoen, Norway; Textron Aviation Doncaster, Doncaster, UK; Textron Aviation Le Bourget, Paris, France; Turbo Air, Inc., Boise, Idaho; and Yingling Aviation, Inc., Wichita, Kansas, to the roster of highly-regarded Textron Aviation and independent service centers already capable of selling, installing and servicing the Advent eABS anti-skid braking system on King Air B200 and B300/300/300LW aircraft” said Jeremy Kenyon, Advent Manager of Systems Integration and Support.

With the above additions, Advent’s dealer network equals 31 service centers spanning North America, Europe and Australia providing eABS for operators of King Air or PC-12 aircraft, with eABS for the Eclipse 500/550 and Textron T-6 Texan II available through the OEM.

Advent provides on-site engineering support for each dealer’s first eABS installation, including Sundt Air’s first eABS installation on a King Air 250, and Yingling Aviation’s first two installations done in parallel on two new King Air 350i aircraft.

The Advent eABS is certified by the FAA, EASA, and TCCA for the aforementioned King Airs, Textron T-6 Texan II, Pilatus PC-12 and Eclipse 500/550.

### **About Sundt Air, AS**

Sundt Air AS is Norway’s largest operator of Business Jets. Key business areas include Executive Charter, Aircraft Management, Special Mission Operations and Maintenance. Sundt Air holds an EASA PART-145 approval, and offer Line- & Base Maintenance, Phase Inspections, Repairs and Upgrade Installations. See [www.sundtair.com](http://www.sundtair.com)

### **About Textron Aviation Inc.**

Textron Aviation Inc. is the leading general aviation authority and home to the Beechcraft, Cessna and Hawker brands, which account for more than half of all general aviation aircraft flying. The Textron Aviation brands represent unrivaled innovation, performance and leadership in the industry, and offer an unmatched value proposition rooted in the total ownership experience. Leveraging unparalleled speed-to-market, Textron Aviation provides the most versatile and comprehensive business and general aviation product portfolio in the world through five principal lines of business: business jets, general aviation and special mission turboprop aircraft, high performance piston aircraft, military trainer and defense aircraft and a complete global customer service organization. Textron Aviation has delivered more than 250,000 aircraft in over 143 countries. Its broad range of products

include such best-selling aircraft as Citation business jets, King Air and Caravan turboprops and T-6 military trainer aircraft, all of which are backed by the industry's most capable global service network. For more information, visit [www.txtav.com](http://www.txtav.com).

**About Turbo Air, Inc.**

Turbo Air has extensive experience operating all types of aircraft within a variety of contractual frameworks. Turbo Air has been conducting aviation related operations at the Boise Airport (BOI) for over fifty years and specializes in aircraft management, pilot services, leaseback arrangements, medical air ambulance and on-demand charter services. Turbo Air operates an FAA repair facility with A&P mechanics qualified to perform inspections, overhauls and maintenance on jet, turboprop and piston powered aircraft. Visit [www.turboairboi.com](http://www.turboairboi.com).

**About Yingling Aviation, Inc.**

Yingling Aviation is a full-service FBO/MRO and premier Textron Aviation affiliate located at Wichita's Dwight D. Eisenhower National Airport (KICT). Established in 1946 their range of services include airframe, engine, avionics, parts sales, propeller sales & service, interior, aircraft sales, and 24 hour customer service and line service. Yingling's FAA/EASA-certified aircraft maintenance department performs comprehensive service, modifications and repairs, specializing in Textron's legacy Citation and Conquest, and Beechcraft King Air support.
